

Seminar: TAO1-Geomancy training course:

Geomancy deals with the interrelationships between earth, mankind and the cosmos. Everything that happens on earth is energy - and leaves traces that have a lasting impact on us. Every culture before us has left "energetic footprints" with its own rituals and ways of life, which affect us today. What happened in the past on the property where you spend your life? Was it once a cemetery, a ritual place, were there quarrels, divorces and fights or maybe weddings and births?

The aim of geomantic work is to use the positive energies and to eliminate the negative energies and thus negative influences on our lives. Land revitalization brings the earth back to its original state and thus creates the prerequisites for a successful, happy and harmonious life. The vital energy necessary for life is raised to a healthy level and interference zones are eliminated. After a land revitalization, the residents feel more carefree, happier and are more open to all the opportunities that life offers to them!

In the TAO1 Geomancy training (according to Dr. Yes T.Y. Lim, QiMag Institute) you will learn which disruptive factors exist and how to neutralize or eliminate them. The course contents include the following features:

- The principles of Taoist practice
- Communication with the awareness of nature, house and apartment
- Getting to know the various energy points in the house and apartment
- Healing negative points in the house
- Analysis of the air and Qi qualities in the room, house and apartment
- Assessment of the 5 elements-Qi in the environment and in the house or apartment
- The total vibration of a house or apartment
- Detection and purification of black currents (Gases rising from the earth)
- Localization of invisible rays from water veins, earth faults
- Recognizing and releasing burdensome curses on site
- Purification and harmonization of negative ritual places
- The different types of negative qi
- Dealing with earth faults
- Consecration of symbols
- Geomagnetic lines
- Anchoring an unstable building or apartment
- Procedure for checking land and house energies
- Evaluation of the effectiveness and knowledge of one's own energy work at a deep level

Seminar price € 2,500.00
